2025 Winter Services

Above Ground Pools

- Winterize Pool No Cover * **(home owner puts cover on)** **$450.00**
- Winterize Pool w/ Solid Cover * **$525.00**
- Winterize Pool w/Mesh Cover* **$525.00**

*** Winterization includes 1 pump and 1 filter. For those with additional equipment see Additional Services below***

It is the homeowner's responsibility to maintain the cover during the winter by keeping most of the water and leaves off the cover.

All Services Listed Above Include the Following:

- Test and chemically balance pool water **(Price of chemicals not included)**
- Drain filter tank, remove motors and store on your property
- Plug return and skimmer **(Winter skimmer plug and return plug not included)**
- Air pillow/inner tube will be inflated & secured under winter cover. **(Pillow or inner tube not included)**
- Add Winter Chemical Kit **(Price of kit not included)**
- Put Cover on Pool (if applicable)

Additional Services

- **$100.00** Solar cover removal and cleaning. Solar cover will be stored on your property.
- **$45.00** Remove all water from heater line. (If applicable)
- **$105.00 per hour** Vacuum pool the same day as closing. ***Covers will not be put on pools with leaves left in them. If there are leaves that need to be removed, you will be billed.***
- **$675.00** Winter Water Watch Service. We will come out 5 times throughout the winter to adjust water level and remove water and leaves from the cover. We will not be able to adjust water level or remove leaves if pool is not frozen. If the pool is frozen upon one of our trips, it still counts as one of the 5 trips.
- **$55.00-$80.00 priced by filter type** Filter Repair We will take your DE or Cartridge filter apart when we winterize the pool. Upon inspection, damaged elements or elements that are in need of chemical cleaning will be brought back to be cleaned and repaired. ***Any parts needed will be billed when repairs are completed.***
